ABOUT US

People who know finance and the shop floor

Fibersoft is a Gujranwala-based ERP and IT company with an ACCA-qualified team. We design, implement and support Fibersoft ERP for importers, manufacturers, traders and exporters across Pakistan.

Most growing companies outgrow basic accounting software: stock lives in spreadsheets, production and costing are guessed, and FBR invoices are typed into a portal twice. Fibersoft ERP runs the whole company on one database, so every item, customer, supplier, employee and account is entered once and shared by every module.

modules	specialists	offices	mobile apps

Our Mission

Give Pakistani businesses a first-class ERP at a price local companies can afford, with the people to make it work.

Our Vision

One live system where owners see today's sales, stock and cash on their phone, and FBR is done on save.

Why companies choose Fibersoft ERP

All-in-one
37 connected modules on one set of numbers.

FBR digital invoicing
Reported to FBR on save, FBR number and QR printed.

Fibersoft AI
Answers from your own data in English or Urdu.

Multi-company
Many companies and branches, one login.

Any device
Phone, tablet or computer, with 3 mobile apps.

Secure
Field-level rights, encryption and a full audit trail.

ACCA-qualified team
Finance people who understand your books.

Fast deployment
Cloud, or a dedicated server set up for you.

9/6 support
Customer care 9 hours a day, 6 days a week.

Our values

Honest advice
We recommend only the modules you need.

Finance first
Every workflow ends in correct books.

Built to last
Upgrades and support for years, not months.

Close support
A real team in Gujranwala, 9/6.

THE PLATFORM

37 modules, one database

Quotations, orders, deliveries, invoices and payments flow between departments in the same moment. Start with what you need and add modules as you grow.

INDUSTRY SOLUTIONS

Five industries, done deeply

We focus on five industries, so every workflow, report and example comes from businesses like yours.

01

Apparel & Garments

Cut-to-pack, knitwear and hosiery makers: orders, fabric, bundles, piece rates and export shipments in one system.

K Industries · Wooltex Knitting Mills · M/S Khwaja Hosiery

- Size & colour matrix stock
- Bundle barcodes & piece-rate wages
- Style costing from fabric, trims & CM
- Export invoice & packing list

02

Mobile Phones & Laptops

Handset assemblers, mobile importers and laptop distributors: every unit tracked by IMEI or serial number, from kit to customer.

FA Computer Pvt Ltd · SBS Pvt Ltd

- CKD/SKD kit BOMs
- IMEI 1 & IMEI 2 pairing, duplicates blocked
- Dealer schemes & price protection
- Warranty claims by serial

03

Import Export & Electronics

Importers, exporters and electronics traders: LCs, shipments, landed cost, currencies and serial-wise stock.

Open for new clients

- LC & shipment tracking
- Landed cost per unit
- Exchange gain & loss on realisation
- Serial-wise stock & warranty

04

Packaging & Pharma

Two industries on one platform: PVC film packaging makers and pharmaceutical manufacturers.

Master Plastic Pack · KM Pharmaceutical Pvt Ltd

- PVC film: roll-wise stock in kg & metres, gauge checks, job costing
- Pharma: formula batches, QC release, FIFO dispatch
- Batch traceability & recalls
- Wastage, trim & regrind

05

Pvt Ltd Manufacturing

Private limited manufacturers: production, costing, multi-company accounts, payroll and audit-ready books.

All Fibersoft ERP clients, incl. Asia Rice Mills

- Production & MRP
- Actual cost per order or batch
- Multi-company consolidated books
- Internal audit trail

Every industry also gets

FBR digital invoicing · Fibersoft AI · Live dashboards · Mobile apps · Multi-company books · Role-based security

more on-time deliveries
Master Plastic Pack

on-time order fulfilment
K Industries

less payroll processing time
K Industries

FBR digital invoicing, built in

Each sales invoice goes to FBR's digital invoicing system when you save it. HS code, buyer NTN/CNIC, registration status, tax per line and totals are validated first; the FBR invoice number and QR code print on your own invoice format.

1. **Review** — Items, HS codes, tax rates
2. **Configure** — Tax templates & print formats
3. **Test** — Sample invoices checked
4. **Go live** — Every invoice reported on save
